AMERILAB TECHNOLOGIES, INC. Achieves NSF International Good Manufacturing Practices (GMP) Registration

Amerilab meets all NSF GMP requirements

(Minneapolis, MN) – Amerilab Technologies, Inc., a leader in the development and manufacture of effervescent dietary supplements, is pleased to announce Good Manufacturing Practices (GMP) Registration through NSF International’s Dietary Supplement Certification program.

Amerilab Technologies specializes in the development, manufacture and packaging of effervescent tablets and powders. With extensive experience in formulation of various dietary supplements, nutraceuticals, pharmaceuticals, and other specialty applications, Amerilab Technologies is the U.S. leader in effervescent dosage forms.

"This GMP registration demonstrates Amerilab Technologies’ outstanding pursuit to excellence," said Edward Wyszumiala, General Manager of NSF’s Dietary Supplement Programs. "Not only can Amerilab’s customers be confident that they are getting a quality product, they can be assured that all NSF GMP requirements have been met."

"GMP registration through NSF International is a clear way to communicate our commitment to producing the highest quality products on the market and will allow us to stay competitive and attract new customers to our unique services," said Fred Wehling, President of Amerilab Technologies.

Amerilab Technologies, Inc. is the leader in effervescent product and contract development, manufacturing and packaging of effervescent tablets and powders.

Amerilab specializes in the development and production of effervescent tablets. Amerilab offers experienced assistance from development, through commercialization of your effervescent product ideas, including analytical testing and packaging.
